Esther YAMUZA

A SEA OF STORIES

BRIEF BIOGRAPHY

Esther Yamuza has a University Degree in Dramatic Art at ESAD and she graduated in Teaching at the University of Seville.

From her beginnings in the theatre and as a professional narrator since 2004, Esther has worked with numerous cultural and educative centres, organisations and associations, among them:

- Centre of Arts in Andalusia
- The Museum of Fine Arts in Seville
- The Three Cultures of the Mediterranean Foundation
- Intercultural Oral Narration Festival (FINOS)
- International Arts and Disability Festival (Escenamobile)

A SEA OF STORIES

"A sea of stories" has been created to stimulate the learning process of children from 4 to 8 years old. It recreates sounds and smells of the sea, becoming a celebration of the senses. Welcome to a lullaby of sweet and salty waves!

"A sea of stories" is a very special storytelling show. More than a stories session, it is an underwater journey where word and nature unite under the same roof. Children can participate by emitting sounds, making movements, touching, smelling or recognizing the different characters in the stories. Esther Yamuza supports the words with body-gestural expression and encourages active participation of the audience. She brings her stories to life using specific storytelling and performance techniques (gesture, voice, movement, sound, music and object relations) giving children an unforgettable experience.
